Rep. Shannon Seeks Re-election

Bill Shannon, the present State Representative of the 52nd District, stated today he would be a candidate for re-election. He stated that he had been in the district for the past eight years and is re-elected he would render the same kind of service in the future.

Bill Shannon was born and reared in the District, comprised of Houston, Corpus, Frack and Hamilton Counties, and this is true of all of his life. Shannon is a well-known and respected citizen of the district, as well as acquainted with the needs of the district, as any man who resides in the district. Shannon, during his entire service as a law maker has never been absent a day during this time. Shannon of bills have been considered and enacted into law. He has devoted a considerable part of his time to the betterment of higher education and has sponsored and passed in the House the Education Trust Act which has last two regular sessions, and other bills if he is re-elected he will sponsor and pass in the House the bill which Shannon has sponsored during his service in the Legislature, the Youth Development Council and has consistently voted and supported higher grants for the old people of Texas. He said the present pension has never caught up with the higher cost of living. He hoped to see as many of the voters in the district as possible but hereby normally solicits their vote and support in the Democratic Primary. (Pol. Adv.)

Everybody Knows That A Farmer Can't Make Money—

- 1. Without Good Land
- 2. Without Proper Equipment
- 3. Without the Knowledge and Skills That Go With Good Management

Most Farmers Know Also—

That even if all three of the above conditions are favorable, a farmer is handicapped unless he has:

- 4. Proper Financing

Your Production Credit Association Knows—

That profitable farming is still possible where favorable factors exist and the farm operator is properly financed. This is another way of saying that the Production Credit Association directors and loan committee have

Confidence in The Future of Agriculture
